All Weather, Inc. Awarded eFAST Master Order Agreement with the FAA

Sacramento, CA (October 23, 2009)-All Weather, Inc. (AWI), a leading manufacturer of weather information systems and meteorological sensors, has announced its successful bidding, to participate in the Electronic FAA Accelerated and Simplified Tasks (eFAST) program. AWI has joint ventured with American Operations Corporation (AOC) to form AOC Aviation Services, LLC to pursue FAA contracts associated with the eFAST program.

The Federal Aviation Administration (FAA) has issued multiple Master Order Agreements (MOAs) with Small Businesses in which AOC Aviation Services has qualified for:

- * Air Transportation Support (ATS)
- * Engineering Services (ES)
- * Computer/Information Systems Development (CSD)
- * Computer Systems Support (CSS)
- * Documentation & Training (D&T)
- * Maintenance & Repair (M&R)

The eFAST program is a multi-year MOA program offering a unique avenue for Small Businesses to offer its services in a number of labor categories. The eFAST program will be the FAA's preferred acquisition vehicle for meeting the FAA's Small Business goals.

"The teaming of AWI and AOC to form AOC Aviation Services, LLC will give the FAA a seasoned professional services firm with decades of experience working federal contracts and programs," said Jason Hall, President of All Weather, Inc. "The eFAST program will be a great way to show the contributions Small Businesses can make to further FAA program objectives and its overall mission".

About All Weather, Inc.

All Weather, Inc. (AWI) is a leading developer of high accuracy; high dependability weather information systems that help users minimize risks in an unpredictable world. The company provides AWOS aviation weather systems, air traffic control display systems, as well as a wide range of high accuracy meteorological sensors and systems, including laser ceilometers, runway visual range systems, lightning detection sensors, and a variety of other meteorological sensors. The company's ASOS, AWOS, and AWSS systems meet the stringent standards of the International Civil Aviation Organization (ICAO), the World Meteorological Organization (WMO), and Federal Aviation Administration (FAA). AWI has installed more than 2,800 high-end

automated weather systems around the globe, working with such leading authorities as the U.S. National Weather Service, FAA, ICAO, WMO and commercial users around the world. For more information, see www.allweatherinc.com<<http://www.allweatherinc.com/>>.

About American Operations Corporation

Founded in 1983, AOC provides IT and Aviation Support services to Federal contractors and the Federal Government.
