All Weather, Inc. Appoints New President

The All Weather, Inc. (AWI) Board of Directors has elected Jason Hall as the new president of All Weather, Inc.

Mr. Hall will be based at the Sacramento headquarters of All Weather, Inc. and will be responsible for all company operations. Mr. Hall has a ten-year background in embedded systems, fables semiconductors, industrial controls, government contracting, and capital equipment markets. Jason has served as the Chief Financial and Operations Officer at AWI over the past three years, and brings his experience and knowledge of AWI's products and customers to this new appointment.

According to Don Soenen, CEO and Board Chairman of All Weather, Inc., "Jason has demonstrated that he has the ability and management skill to take AWI to the next level. He has been instrumental in the recent successes of AWI. His broad range of skills in technology-based businesses is ideally suited for our company".

Mr. Hall earned his BS in Business Administration from California State University Sacramento, and holds a current California CPA license. Jason has been recognized as a leading executive in the Sacramento region, and has been recognized by various industry panels.

All Weather, Inc. is the leading manufacturer and supplier of automated weather systems in the world, with over 2000 systems already installed. AWI develops and manufactures high-quality, reliable, meteorological sensors and systems, state-of-the-art Integrated Graphic Displays, and advanced Automated Weather Observing Systems.

About All Weather, Inc.

All Weather, Inc. (AWI) is a leading developer of high-accuracy, high-dependability weather information systems that help users minimize risks in an unpredictable world. The company provides AWOS aviation weather systems and air traffic control display systems, as well as a wide range of high-accuracy meteorological sensors and systems, including laser ceilometers, runway visual range systems, lightning detection sensors, and a variety of other meteorological sensors. AWI's ASOS, AWOS, and AWSS systems meet the stringent standards of the International Civil Aviation Organization (ICAO), the World Meteorological Organization (WMO), and FAA. AWI has installed more than 2000 high-end automated weather systems around the globe, working with such leading authorities as the U.S. National Weather Service,

FAA, ICAO, WMO and commercial users around the world. For more information, see www.allweatherinc.com.
